Note

Due to applicable Swiss law the volume at public and concerts may, measured over 60 minutes, not exceed the averaged level of 100db(A).

The violation of this limit will lead to the definite closing of the club.

Room

The wall between showroom and bar can optionally be opened.

Power access

Additionally, a 32A power distributor on stage is available on demand.

Power Sockets

Swiss Power socket (230V; 50Hz) are not compatible with the „Euro Norm“. Please contact us if we should provide adapters.
